Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Superintendence of Piping Installations in Buildings: Sanitary, Hydraulic, and Gas The book has grown out of series of articles contributed, some years ago, by the author, to an architectural publication. The articles have been revised and brought up to date, and considerable new matter has been added. The rules, suggestions, and observations are based upon a practical experience of more than twenty-five years in this branch of building construction and sanitation. The aim throughout has been to deal with the subject from a practical point of view only. Purely theoretical considerations are purposely omitted as they may be found in other works by the author, to some of which reference has been made. The book is intended chiefly for the younger men beginning actual practical work, for architectural superintendents, as well as for plumbing and health inspectors, and for the superintendents and foremen of plumbing firms. Property owners who build houses and who prefer to look after the plumbing and sanitary work themselves - parenthetically I may state that there are quite a number of these -should find the book a useful guide.
