It is presented here in a somewhat changed form, because the practical experience in the schoolroom has shown since what points of the method are in such harmony with established views as to require no further explanation, and what details need full comment and amplification in order to guard against such mistakes as are likely to creep in. In some respects I was guided by many inquiries on the part of the friends of the method. I regret to say that I have not always been able to answer these questions as fully as I wished. I hope that my correspondents will find the desired explanation in this new version of the old essay. I...
