Improving the quality of land for wildlife is the single most constructive step that anyone can take to assist wild bird populations. Happily, it is well within almost everyones capability to improve bird habitats by providing important food and cover plants. Through this book, I will assist caring landowners and managers of properties ranging in size from urban balconies and suburban backyards to larger properties such as country estates, schoolyards, cemeteries, corporate parks, airports, golf courses, wildlife refuges, and parklands of all sizes.
